

**Bremen, February 28, 2024**

To whom it may concern,

Constructor University is currently affected by a cyber incident which started on February 6<sup>th</sup>, 2024. After the incident was discovered, the university's servers were immediately taken offline to protect systems and data. Constructor University is currently working at full speed to get all systems up and running again. The university has set up a temporary solution and is ensuring that all educational programs can continue.

We have enough evidence at this point to believe the incident is limited to service interruption. The affected services include but are not limited to course administration, issuance of transcripts, issuance of enrollment and other confirmation letter, processing of requests to be excused, etc. and are currently delayed until further notice. We ask for your understanding that we cannot provide any further information at this time due to the ongoing disruption.

Warm regards,

i.A. Dr. Freia Hardt
